

**INDULGE
IN THE LIGHT...**

S:CRAFT SHUTTERS & BLINDS ENHANCE ANY ROOM, ADDING STYLE & AMBIENCE

CREATE THE LOOK YOU'VE DREAMED OF

Whether it's for a country cottage or a penthouse apartment, S:CRAFT's window coverings provide a versatile, superior and sophisticated solution for any type of window, patio door or room divider. The quality and diversity of the S:CRAFT range is built on fifteen years experience developing the UK's largest range of made-to-measure shutters.

"Cascading streams of light create a unique and calming atmosphere"

“Subtle colour tones blend seamlessly for contemporary living”

BI-FOLD/BY-PASS ▶

The perfect solution for patio doors and large window runs, our Bi-fold and By-pass Tracking Systems are ideally suited to long panel runs and are also suitable for room dividers and partitions

CAFÉ STYLE ▼

Ideal for ground level windows and town houses, Café style leaves the top of the window un-shuttered, using shutters for the bottom part. This style maximises light whilst providing privacy

▼ FULL HEIGHT

Covering the full height of the window, this is our most popular and flexible installation style. Commonly specified with a mid rail, the shutter panels are split into sections, with separate tilt rods, providing the highest levels of privacy and light control

**PRIVACY, STYLING,
LIGHT CONTROL AND
FUNCTIONALITY**

Whether you decide to choose our Café style, Tier-on-tier, Full height or Tracked shutters, S:CRAFT's made-to-measure solutions enable you to choose the right style for your individual requirements.

▲ TIER-ON-TIER

Independent panels top and bottom give greater adjustability to make the most of the light, the view or provide you with privacy

**SHUTTER
STYLES TO SUIT
ALL ROOMS**

“accentuate the lines and shapes of feature windows”

MADE-TO-MEASURE SOLUTIONS TO SUIT ANY WINDOW

QUALITY ENGINEERED WOOD

The quality of our engineered products allows us to offer an amazing array of shapes to suit unconventional window configurations. Unlike many other shutter manufacturers, all S:CRAFT's hardwood shutters utilise engineered wood to prevent warping. Mortise & tenon joints ensure longevity and durability, compared to simpler dowelled joints.

▼ Bespoke full height shutters accentuate arched windows

▲ Engineered stile with mortise & tenon joint

▲ Due to the made-to-measure nature of shutters even the most awkward shapes can be catered for

▼ **BASSWOOD**

BassWood is our most versatile hardwood. Whether painted or stained, S:CRAFT's engineered BassWood is the expert's choice

"choose a custom colour to make a splash..."

◀ **CEDARWOOD**

CedarWood is at the top of our product range. Light, durable, moisture resistant and extremely versatile, CedarWood is available in a stained, painted or unique oiled finish

◀ **CRAFTWOOD**

CraftWood is manufactured in our 3 most popular colours to provide an entry level product manufactured to the same high quality standard as our premium hardwoods

CHOOSE THE MATERIAL TO CREATE YOUR PERFECT LOOK

5 MATERIALS FOR BREADTH OF CHOICE

With the UK's largest choice of materials, shapes, tracks, frames, stains and colours we offer the total package. Our product range is designed to suit all budgets, from entry-level CraftWood to our premium CedarWood, S:CRAFT's quality is guaranteed.

PEARLWOOD ►

With its beautiful and distinctive grain, S:CRAFT's PearlWood lends itself especially to stained finishes, allowing the natural grain to shine through

PERMAWOOD

This material is extremely hard wearing, making it ideal for commercial installations. Its moisture resistant properties also make it suitable for bathrooms & kitchens

Remote control option is ideally suited to inaccessible or large runs of shutters

INNOVATIVE REMOTE CONTROL SHUTTERS

ULTIMATE LIGHT CONTROL AT THE TOUCH OF A BUTTON

S:CRAFT's fully integrated remote option allows users to perfectly control individual louvred panels or align multiple panels simultaneously. Motors are integrated within each panel and their smooth, quiet operation delivers advanced light control via numerous preset louvre angles. This option is available on all hardwood shutters.

Each shutter section contains a magic eye and motor allowing for individual panel control

THE UK'S WIDEST CHOICE

LOUVRE STYLES AND TILT RODS

The choice of louvre size is critical to getting the best out of your shutters. We offer 7 options, including a solid shutter and a S-Shaped louvre which reduces light ingress.

LOUVRE SIZES

32mm

47mm

64mm

COLOURS & STAINS

Our shutters have either 6 coats of paint or 7 coats of stain to give a tough, lustrous finish. We offer a large selection of standard colours and stains and are able to match colours from numerous well known trade palettes as well as a custom colour match against a sample.

89mm &
Hidden Tilt rod

114mm

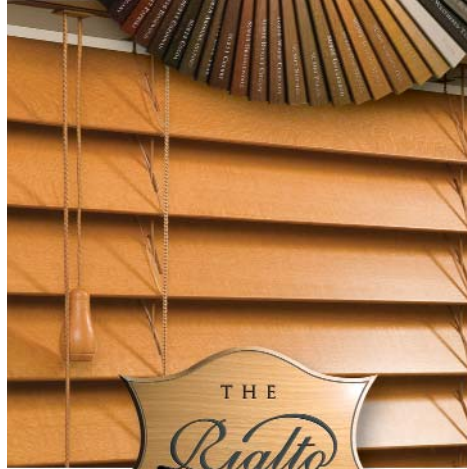

S- Shaped Louvre

FRAMES

Like every masterpiece, a shutter requires a quality frame. We have the UK's largest choice of frames to enable your shutters to be fitted in style.

A Palette of 60 colours plus the custom colour option ensures S:CRAFT's BassWood and PearlWood shutters will complement your existing décor

CUSTOM-MADE WOOD SLAT VENETIANS OF EXCEPTIONAL QUALITY

With 18 paints and 42 stain finishes as standard, a large selection of cords, decorative tapes and valances, the Rialto collection has been designed to turn heads and is as much about diversity as it is about quality.

Our made-to-measure Rialto blinds are available in PearlWood and BassWood and come with a choice of louvre width of 64mm and 50mm. Rialto blinds are designed to complement and match their equivalent S:CRAFT shutter.

Open or shut, light or shade; Rialto blinds can go solo or be used to match shutters within the same property

“Classic or Contemporary, Rialto blinds blend seamlessly into their surroundings”
